

Custom Kitchens, baths and renovations

CRANBURY DESIGN CENTER

The Cranbury Design Center specializes in the design, development, delivery and installation of custom kitchens and baths for retail clients and builders.

Our ability to establish rapport with our clients, our ability to transfer our knowledge and experience to help our clients meet their needs, and our loyal repeat customer referral base is what sets us apart from our competition.

The Cranbury Design Center offers a level of creativity, practical experience, know-how, key strategic alliances and service that surpass the expectations of our clients.

Listen to the Client | The Cranbury Design Center realizes that the secret to project success is listening to the client throughout the project life cycle. Just as the best carpenters “measure twice and cut once”, our team of professionals listen thoroughly to understand our client’s lifestyle, unique needs and requirements, as well as their short and long term expectations. Only then do we make recommendations on the best kitchen and bath designs that will best meet their needs.

Work with the Best and Brightest People | Everything begins with our people. Our team of business members and employees are veterans of the kitchen and bath design business and have run business divisions of major corporations. We invest in our people by providing them with extensive training and career development.
